

THOMAS V. LOWELL

Curriculum Vitae

Personal:

Born: February 7, 1954, Lincoln, Maine
Marital Status: Married, Sandra Leah Shipley
Present Address: Department of Geology
University of Cincinnati
Cincinnati, Ohio 45221-0013
(513) 556-4165
e-mail: Thomas.Lowell@uc.edu

Education:

B.S., Geology, Rensselaer Polytechnic Institute, 1976
M.S., Geology, University of Maine at Orono, 1980
Ph.D., Geology, State University of New York at Buffalo, 1987

Professional Experience:

Field Party Leader, 1978-1994 Maine, for the Maine Geological Survey; 1986-2001 Ohio; 1989, 1991, 1994, 1997, 1999 Iceland; 1993, 1996, 1997 Alaska; 1991-1998 Chile and 1997-2001 New Zealand for the University of Cincinnati.

Field Geologist, 1978-1979, 1985-1986 Antarctica, with Dr. George H. Denton, University of Maine, 1980, 1990 Alaska, with Dr. Parker E. Calkin, State University of New York at Buffalo

Teaching Assistant, 1979 Geology for Foresters Laboratory; 1980 Geology for Engineers Laboratory, Department of Geological Sciences, University of Maine at Orono; 1981, 1982 Geomorphology Laboratory, 1983 Field Methods Laboratory, Department of Geological Sciences, State University of New York at Buffalo.

Research Associate, 1978-1980, 1985-1986 Antarctica Project, Institute for Quaternary Studies, University of Maine at Orono; 1980 Greenland Ice Sheet Project, Ice Core Laboratory, State University of New York at Buffalo.

Regional Compiler, 1980-1983 for the first Maine State Surficial Map, Maine Geological Survey.

Instructor, 1984 maternity leave replacement - Environmental Geology, Husson College; 1984 sabbatical leave replacement - Glacial Geology, Department of Geological Sciences, University of Maine at Orono.

Assistant Professor, 1986 to 1992, Department of Geology, University of Cincinnati.

Associate Professor, 1992 to 2000, Department of Geology, University of Cincinnati.

Professor, 2000 to present, Department of Geology, University of Cincinnati.

Membership in Professional Societies:

International Glaciological Society	Sigma Xi
American Quaternary Association	American Geophysical Union
Geological Society of America	Geological Society of Maine

Research Support:

Contracts

- 1978: Detailed surficial mapping: Mount Desert Island, Maine; Maine Geological Survey.
- 1979: Reconnaissance surficial field mapping; mineral resource evaluation of the Dickey-Lincoln School Lakes project, New England Division, U.S. Army Corps of Engineers.
- 1980: Gravel aquifer mapping; Lincoln, Maine area. Maine Geological Survey.
- 1981: Reconnaissance surficial field mapping: St. John River area, northern Maine, Maine Geological Survey.
- 1982: Reconnaissance surficial field mapping: Clayton Lake area, northern Maine, Maine Geological Survey.
- 1983: Reconnaissance surficial field mapping: Seboomook Lake area, northwestern Maine, Maine Geological Survey.
- 1984: Reconnaissance surficial field mapping: Churchill Lake area, northern Maine, Maine Geological Survey.
- 1984: Geologic component of archaeological project: Merrymeeting Bay, Maine, Maine Historic Preservation Commission.
- 1985: Detailed surficial field mapping: Houlton-Bridgewater area northeastern Maine, Maine Geological Survey.
- 1986: Geologic component of archaeological project: Milford Maine, Institute for Quaternary Studies.
- 1987: Detailed surficial field mapping: Southwest Harbor area Maine, Maine Geological Survey.
- 1988: Detailed surficial field mapping: Southwest Harbor and Bass Harbor areas Maine, Maine Geological Survey.
- 1988: Geologic component of archaeological project: Topsham, Maine, Maine State Museum.
- 1989: Detailed surficial field mapping: Seal Harbor area Maine, Maine Geological Survey.
- 1989: Geologic component of archaeological project: Topsham, Maine, Maine State Museum.
- 1990: Geologic component of archaeological project: Topsham, Maine, Town of Topsham.
- 1990: Gravel Aquifer Mapping, Dover-Foxcroft area, Maine, Maine Geological Survey.
- 1990: A Comparison of Outcrop vs. Core Stratigraphy at Doty's Highbank, Cooperative Drilling Program, Ohio Department of Natural Resources, (\$12,579, funded on in-kind basis).
- 1992: Detailed surficial field mapping, Newbery Cove area Maine, Maine Geological Survey.
- 1993: Regional complination, northeastern Maine, Maine Geological Survey.
- 1998: Hydrological Investigations of the Shaker Creek Aquifer, from local governments in Warren County, (\$19,260).

Reviewed Grants

- 1987: A three dimensional mapping technique to provide baseline data for landslide hazard assessment. University Program Advisory Committee, University of Cincinnati, (\$10,197).
- 1987: Establishment of a Quaternary data base for Southern Ohio. University Research Council, University of Cincinnati, (\$4,500).
- 1988: Bucher Award for field studies in Iceland, Department of Geology, University of Cincinnati, (\$1500).
- 1989: Developing estimates of iceberg calving to test one cause of climatic change, Summer Faculty Research Fellowship, University of Cincinnati, (\$3,500).
- 1992: Enhanced radiocarbon chronology from Ohio: A Northern Hemisphere glacial geologic test of alternate glacial climate hypothesis, (NSF, \$149,997, funded for 3 years)
- 1995: Subglacial deformed sediments: A geological field test, National Geographic Society, (\$12,830).
- 1997: Surficial geologic maps of the Waynesville and New Burlington 7.5-minute quadrangles, southwestern Ohio, U.S. Geological Survey, [\$12,000]
- 1997: Bucher Award for field studies on tidewater glaciers in Alaska, Department of Geology, University of Cincinnati, (\$1500).
- 1998: Surficial and subsurface mapping Shandon and Harrison 7.5-minute quadrangles, Hamilton and Butler Counties, Ohio, United States Geological Survey, [\$6,500]
- 1999 Surficial mapping of the Bellefontaine and DeGraff Quadangles, United States Geological Survey, [\$3,500]
